 Warehouse Star

Outgoing Goods

Web & Mobile App

No backlog in goods dispatch: Goods can leave the warehouse on time, as the required documentation is swiftly and flexibly handled with the **Outgoing Goods** app.

Your Benefits

- **Reliably record outgoing goods:** Your warehouse staff process goods dispatch quickly with the app.
- **Generating delivery notes:** All necessary data is readily available in the system! For swiftly generating delivery notes with the app.
- **Documentation without loss of time:** Comprehensive documentation of all goods dispatches without delay in transport.
- **Smooth redistribution of goods:** Don't keep other locations waiting and ensure a seamless flow in the Distribution Structure (BOD).
- **Seamless integration:** Utilize the benefits of the integrated Bitergo Warehouse Management Solution and access other apps such as Shipping and Packaging.

The screenshot displays the 'Base APP goods out/Shipments' interface. The main area shows a table with columns for Order, Stat, Typ., Tnt., Consignee, Freight carrier, Container count, Net volume, Net weight, and SSCC. A single row is visible with Order 'LIEFER-00000007', Stat 'Staged', and Typ. 'Shipment'. The right sidebar contains sections for 'Text/label', 'Status/time', 'Party/measure', 'More information', 'Undefined', and 'Item lines'. A 'Confirmation' dialog box is open in the foreground, asking to 'Relocate one handling unit' with a dropdown menu showing 'VS-01' and 'Shipping location: VS-01'. The bottom of the interface includes a 'Count: 1 (Marked 1)' indicator, a '<Settings>' button, and several action buttons: 'Packing...', 'File upload...', 'Handlingunits...', 'CMR...', 'Delivery note...', 'Proforma invoice', 'Post goods out...', and 'Cancel goods out...'. The footer shows 'Logged in: aaron.vergara@dbschenker.com' and 'Connection: drooling-phil88.warehouse'.
